

STUDENT DISABILITY SERVICES EXAM/STUDY ROOMS

Student Disability Services office has ten (10) Exam/Study labs with computers and specialized technology. These labs can be used by SDS registered students during regular business hours. We recommend that you schedule to use the labs in advance. If you stop in as a walk in to use an Exam/Study lab, then they are given out on a first come basis.

Each exam/study lab houses a Dell computer with Internet access. Specialized software programs are also available, JAWS, Zoom Text, Complete Reading System, Text to Audio, Kurzweil 3000 with scanners, Dragon Dictate and Duxberry. In addition EAS also has three (3) CCTV's, Virsapoint Duo Embosser, and Scanner.

Exams take top priority when SDS schedules the labs and may cancel out previous scheduled labs.
