

TEMPORARY DISABILITY SERVICES AND ACCOMMODATIONS

If you are a student with a documented Temporary Disability, the office of Student Disability Services offers a wide variety of legally mandated services. Accommodations will be granted only during the duration of your limitations while you are disabled.

To register with SDS you must go through the same eligibility process as a student with a disability does. You are to make an appointment to speak with an SDS Disability Specialist. It is required that you bring a copy of your documentation with you and the Disability Specialist will determine appropriate academic services and accommodations depending on how you are limited in the academic setting.

Once accommodations are granted, you will be responsible for requesting them in a timely manner and to follow the SDS policies and procedures.
